adebasarrawi@gmail.com

## PROFILE

A recent graduate with a strong foundation in frontend development, equipped with hands-on training experience in creating dynamic and user-friendly web applications. Proficient in HTML, CSS, and JavaScript. Skilled in responsive design and cross-browser compatibility. Eager to apply academic knowledge and training in a professional setting, bringing a passion for design, user experience, and continuous learning.

## WORK EXPERIENCE

❖ Trainee, Orange

..... Jul 2024 — Sep 2024  
Amman

Completed a comprehensive training program in web development, gaining hands-on experience in building responsive and interactive websites. Worked with core web technologies such as HTML, CSS, and JavaScript. Contributed to projects involving UI/UX design and debugging.

## EDUCATION

❖ Hashemite University

..... Oct 2020 — Aug 2024  
Zarqa

*Business Information Technology*

*Good Average*

Graduated with a Bachelor's in Business Information Technology where I learned to develop software applications with different technologies such as C++, Java, Databases, HTML5, CSS3, JavaScript, and PHP. Gained knowledge in Object-Oriented Programming, Data Structures, Web Development, and more. Developed a SkillsSwap Application as a graduation project, an app designed to help students create profiles to showcase their skills, connect with others for skill exchange sessions, schedule them, and rate the exchanges for quality assurance. SkillsSwap enhances students' learning, promotes collaboration, and builds a strong community within the university, with a focus on clean architecture and efficient state management.
